CALL FOR PAPERS

Information Systems Frontiers
Special Issue on Advances in Enterprise Information Systems

Information Systems Frontiers is a high-ranking research journal in the area of management information systems. *Information Systems Frontiers* will publish a special issue dedicated to the topic of "*Advances in Enterprise Information Systems*" in 2007. The purpose of this special issue is to provide researchers and practitioners an opportunity to share the most recent advances in the area of enterprise information integration and management in a global supply chain environment. The special issue is interested in those topics related to all aspects of enterprise information systems. Topics of interest include but are not limited to those listed at http://www.confenis.org/?q=cfp.

The purpose of the Special Issue is to report on the state-of-the-art of, and emerging trends in, research and practice in enterprise information systems. Therefore, we would welcome original contributions on significant research findings, reflecting advanced technological research and applications in the field, and state-of-the-art survey papers and reviews on future directions of enterprise information systems. Each paper will be thoroughly reviewed by at least two qualified expert reviewers. The Special Issue will be edited by Dr. Li Xu (Old Dominion University, USA), Dr. A. Tjoa (Vienna University of Technology, Austria), and Dr. Juhnyoung Lee (IBM T. J. Watson Research Center, USA).

In addition to the regular submission, the Special Issue welcomes *CONFENIS (The IFIP International Conference on Research and Practical Issues of Enterprise Information Systems)* participants' contribution. The best papers selected by the *CONFENIS* International Program Committee out of papers accepted and presented at the conference will be considered for publishing in this special issue.

Information Systems Frontiers is a high-ranking research journal. The journal is ranked as 18 in the field of information systems (see http://63.151.43.10/csaunders/rankings.htm). The journal is abstracted or indexed in Science Citation Index Expanded, Current Contents/Engineering and other major sources. Further information regarding the journal can be found on the ISF web site at http://www.springer.com or http://www.som.buffalo.edu/isinterface/ISFrontiers/.

The deadline of submission is September 15, 2006. Regular submissions should be made through email to the Special Issue's editorial office at,

Professor Li Xu
Department of Information Technology and Decision Sciences
